User Guide:

Why this product/program was developed/purchased:

This conference was developed to bring together educators for a formal program to attend a pre-conference meeting addressing care issues specifically related to veterans, active military, retired military and their dependents in the general topic area of obesity and diabetes.

How your facility will benefit:

Participants will be equipped with the knowledge and skills needed to implement new management methodologies for dia

How to use in your facility:

Conference sessions give participants the opportunity for in depth dialogue and question and answer sessions. Each of these sessions will be led by highly trained and experienced healthcare professionals. Local policies and procedures are not needed for these sessions. This conference is designed to be stand alone collaboration between VA and DoD and is not presented in conjunction with other training events.

Additional Resources:

To be developed later

Planning Committee:
